

For more than 7 years, the wheat storage fee has been constant and has not increased

The head of the Golestan Chamber of Commerce, Industries, Mines and Agriculture stated: "For more than 7 years, the wheat storage fee has been constant and has not increased; The business environment has been referred to as offering bids for executives' contracts with private and co-operative economic operators in order to create contraction and prohibit the imposition of unfair terms on the other party.

"The brick factories in the province have had problems due to the periodic cuts in gas that need to be investigated," said Ajali Mohammad Chupani at a meeting of the government and private sector dialogue council in Golestan province. He pointed out the importance of Inchebron rail capacity and added: "Unfortunately, there has not been a positive thing in this railway line over the years. . The Governor of Golestan also pointed out the capabilities and capacities of the province: Strengthening the private sector contributes to sustainable employment and economic prosperity of the province and we are working to provide the necessary support to investors with the help of executive agencies. "Due to the cold weather, households and industrial customers need to save on gas, so that we don't see a definitive gas," Hadi Hassanoghli said. He added: Establishing a rail link to the Inchebron border to the south of the country via Golestan and Semnan will bring the transportation to the south more than 500 kilometers closer and we should strive to open the way for the private sector to participate in the project. The governor of Golestan noted: The government has a special focus on protecting the private sector, and the executive agencies need

to facilitate this.
