

# Purchase of wheat at agreed price in East Azarbaijan

The Director General of the East Azarbaijan Grain and Commercial Services announced the purchase of surplus wheat at provincial provinces at an agreed price.

Speaking to IRNA on Saturday, Esfandiar Abolhasanzadeh said that wheat growers can be offered higher prices than agreed prices by providing their services on accurate cash results. Sell.

He pointed out that up to 18,000 tons of wheat is allowed at an agreed price from the provincial agencies.

Due to the low price of wheat guarantees per year consultants and low

willingness of wheat farmers to sell wheat to shopping it is predicted that

20-25% of wheat produced in the province is still with farmers and not

delivered yet, said the head of the grain and commercial services of West Azerbaijan.

He has been able to guarantee the purchase price of wheat for 22000 rials for a limited time for years, he said, adding that the figure could be lowered together.

This year, every kilo of wheat was purchased at 17000 Rials.

There are 5 state shopping centers available this year, and 37 private centers including

Silo and Warehouse, Special Services and International Consulting Service.

Provider of wheat services for the province for the year 97-98  
is higher than  
6,000 tons of budget.
