

The highest percentage of wheat storage in the country

Director General of Alborz Province Grain and Commercial Services said: More than 60 percent of Tehran province's flour is supplied in Alborz .

Siavash Hosseinpour, Director General of Alborz Province's Grain and Commerce Services, said: Providing more than 60% flour in Tehran province, the existence of 23 flour mills in this province and the concentration of the country's largest and most important flour mills in the province, show the sensitivity of work and potential. The top of the province is adjacent to the capital. Hosseinpour added: "Also the highest percentage of wheat storage among provinces of the province is another feature to make Alborz province one of the most important provinces in the country's storage debate." The discharge and loading of wheat at 6 tons per hour is also another capacity of the General Office. He further stated that the problems with the delivery of Alborz bakeries' flour will be resolved soon, according to experts. will be.
