

The subsidy for industrial bread was removed

At today's meeting, MPs, allocating the obtained resources, agreed to the removal of industrial subsidies to guarantee wheat purchase.

The representatives of the Islamic Consultative Assembly met in public on Monday morning (Wednesday, Feb 2nd), during the review of the details of the budget section of the whole country in 2019, they approved of paragraph 14-clause 2 of the bill.

In Part 2 of this article, in order to fully implement the third row, the Ministry of Economic Affairs and Finance is required, pursuant to Article 48 of the General Accounting Law, and with the declaration of the State Company subscribed to the Ministry of Oil, to take action to collect the claims of the aforementioned company, which relate to the past years. Funding resources are deposited with the treasury of the whole country. After settling the due dividends and taxes levied by subsidiaries of the Ministry of Oil, the remaining funds are deposited with the treasury of the entire country in the favor of the organization of subsidies targeting.

Also an extension of clause a. Note 14 of the single article of the budget bill of 2019 was

approved by the House
of Representatives, according to which the special subsidy for
the supply of flour
mills is deducted and the resources for guaranteeing the wheat
are allocated.
