

Unauthorized purchase of wheat by the private sector is prohibited

Director of Commercial Development of Agriculture Organization of Zanzan Province, said: In order to meet the consumption needs of households and industries, any gathering, buying and selling of wheat at any rate, even for industrial use as raw materials, must be done with the permission of the grain and commercial services company.

Abdullah Jafari, Commercial Development Director of Zanzan Agricultural Organization, stated today: According to the instructions issued by the Iranian State Trading Company with the aim of managing the collection and purchase of wheat in the country, including Zanzan province, to meet the needs of households and industries for any collection. , Buying and selling wheat at all costs, even for industrial use as raw materials, must be done with the permission of the grain and commercial services company.

Jafari emphasized that it is possible to supply wheat to industrial plants for processing and production of secondary crops through coordination and obtaining the necessary permits, and said that if the matter is ignored, the supervisory authorities will deal with violators in accordance with the rules and regulations.
