

Wheat is imported at the rate of four thousand and Two hundred tomans

Head of the Ministry of Agriculture Jihad, pointing out that we have imported two basic commodity groups, said : rice and wheat and inputs such as pesticides, types of seeds and supplements for livestock and poultry used for production in the amount of four thousand and Two hundred tomans arrive .

Abbas Keshavarz told reporters on Wednesday on the sidelines of a meeting of Isfahan provincial chambers of commerce in Isfahan. "Other commodities that do not include basic products and the government does not interfere with prices, such as meat, legumes, tea and butter," he said. Nominal prices are coming in, and this policy is being revised in favor of protecting domestic production.

Head of the Ministry of Agriculture Jihad said: Today there are enough reserves of livestock and poultry and basic products and we have no problems in this regard.

He added that the prices of some products such as red meat and poultry decreased this year compared to last year.

The first joint meeting of the heads of agricultural chambers of commerce across the country was held today at the Isfahan Chamber of Commerce, with the head of the Ministry of Agriculture and the heads of the chambers of commerce of the country's chambers of commerce.

The meeting was held to examine the challenges and challenges of the agricultural sector in different provinces, such as guaranteed purchases, lack of accurate crop production statistics to determine prices and exports, and water issues.
